PROJECTS

GLOBAL HARMONY

<https://yesmiliyanage.github.io/Global-Harmony-Website/home.html>

Collaborated with a team to develop a website with transitions and an intuitive use experience. Utilized technologies(html, CSS, JavaScript) and ensured effective teamwork to deliver the project efficiently.

PORTFOLIO WEBSITE

<https://github.com/IshiniUdayangana/ACSD-CW>

Developed a responsive portfolio website using html and css.

BUILDING CONSTRUCTION

Working collaboratively on developing a web application for efficient construction cost management. The project features automated cost estimation, real-time expense tracking, predictive budgeting, and secure, role-based stakeholder collaboration. Aiming to improve budget accuracy and proactive risk management.
